Zotero plugins for researchers and faculty

A PLUGIN PACK FROM ZOTEROPLUGINS.ORG · CHECKED 28 NOV 2026

Six plugins for working researchers: citation counts in a column, a flag on papers others have questioned, faster editing of a large library, and readings for the courses you teach.

Each is graded B or better after a check of its code, and works with Zotero 10.

1 See how often a paper is cited

A+ **Google Scholar Citation Count**

Google Scholar citation counts for any item or collection, in a column you can sort, for deciding what to cite or preparing a review.

`zoteroplugins.org/p/zotero-google-scholar-citation-count`

2 Know which papers have been questioned

B **Pubpeer Plugin for Zotero**

Flags the papers in your library that have comments on PubPeer, alongside the retraction alerts Zotero already shows.

B because it sends data through a public relay: filebin.net

`zoteroplugins.org/p/pubpeer-zotero-plugin`

3 Keep up with a field

A **Inciteful Zotero Plugin**

Run a graph search from a collection to find the papers it's missing, or connect two papers to find the work between them.

`zoteroplugins.org/p/inciteful-zotero-plugin`

4 Edit a large library quickly

A+ **Zutilo Utility for Zotero**

Copy and paste tags across items, relate many items at once, and copy citations in several formats, from a right-click menu or shortcuts.

`zoteroplugins.org/p/zutilo`

5 Cite in LaTeX and Overleaf

If you write in LaTeX

B **Better BibTeX for Zotero**

Stable citation keys, and a .bib file that updates itself whenever a collection changes, so a paper's references always match your library.

B because it launches programs on your computer

`zoteroplugins.org/p/zotero-better-bibtex`

6 Share readings with your students

If you teach

B **Zotero Syllabus**

Turns a collection into a syllabus ordered by class, with a reading schedule and due dates.

B because it contacts a server on a hosting platform: read.zotero-syllabus.workers.dev, and 3 more findings

`zoteroplugins.org/p/zotero-syllabus`

Install: download each plugin's .xpi file from its page, then in Zotero choose Tools › Plugins, click the gear, and Install Plugin From File. Step by step: zoteroplugins.org/install

Grades come from a check of each plugin's code: A+ Recommended, tested in Zotero · A Recommended · B Use with care, read why first.
